External growth operation finalised: AURES acquires Softavera and LST

The AURES Group has acquired 100% of the shares of two companies representing combined revenue of approximately €2 million and specialising in the design, development and marketing of software products. French company Softavera and its Tunisian counterpart Leader Solution Tactile (LST) (and their trademarks and associated software products) have joined the Group effective as of 22 February 2021.

Reinforcement of the Group's activities

Thanks to this acquisition, AURES will be able to draw on the expertise of some sixty developers in order to offer end-to-end solutions to markets of all types and sizes, providing not only hardware but also middleware solutions.

AURES middleware will be an environment that can provide partners' or customers' software with additional interconnection services and functionalities and application tiles, including click & collect, drive, self-ordering, equipment monitoring and more.

About the AURES Group

Founded in 1989 and listed on Euronext since 1999, AURES is an IT manufacturer providing a complete range of hardware solutions for the POS market (point of sale and services, retail, hospitality, etc.) and the kiosk sector (interactive terminals and integration).

The AURES Group has a global presence with its headquarters in France, subsidiaries in the UK, Germany, Australia and the US (AURES Technologies Inc. and Retail Technology Group – RTG*), and a network of partners, distributors and resellers in over 60 other countries.

*Retail Technology Group Inc. (RTG) is a major North American player in IT services and POS maintenance (hardware and software).
