

INEOS 600 by POSLIGNE®

Ultra slim and compact mini PC

With their INTEL Atom® architecture, the INEOS 600 mini PCs are the perfect equipment for all your EPOS - point of service applications, whatever the field or sector of activity.

The INEOS mini PCs' motherboard is equipped with an INTEL Atom® embedded computing platform, for improved graphics performance and lower power consumption.

Its rugged metal housing with fanless and ventless design makes it an ideal min PC for any harsh environment.

It is supplied with various mounting ways (VESA & lateral fixings) and is perfectly adapted to digital signage and point of sale and service applications, etc.

INEOS 600 ultra compact mini PC

- INTEL Atom processor for outstanding graphics capacity and low-power consumption
- Perfect for harsh environments (rugged metal housing & fanless - ventless design)
- Several I/O ports
- Ultra slim and compact size
- Multiple and flexible mounting supports (VESA 100 x 100 + lateral fixings)
- Easy access to HDD (via a hatch at the back of the PC)
- 2 external antennas (WIFI) to boost performance in connectivity
